 Category B

SKILLS & EXPERTISE

Programming languages : Python, Pyspark, SQL.

Data science : NLP, Generative AI, Forecasting, Deep learning, Machine learning, Statistiques.

MLOps : Docker, MLflow (Model Registry), CI/CD (GitHub Actions, Azure Pipelines), Hugging Face.

Cloud : Azure (Azure Databricks, Azure data factory, Azure OpenAI) .

APIs - Frontend : FastAPI, Gradio, Streamlit.

Version Control : GitHub, Azure DevOps.

Reporting : Power BI

Languages : English (C1), Spanish (B1).

CERTIFICATIONS

Data science : text mining, machine learning, deep learning.

Microsoft : AZ-900, IA-102

SAS : Economic data analytics.

HOBBIES & INTERESTS

Traveling

Pilates

Running

WORK EXPERIENCE

Data Scientist - SCC (Specialist Computer Company)

07/2024 - Present

- Tools : Azure, Nvidia AI Enterprise, HuggingFace, Langchain, LLMops, Unsloth.
- Expertise in Generative AI focused on Natural Language (NL): RAG, embeddings, llm, fine-tuning, guardrails, model evaluation.
- Development of AI agents (Agentic AI) integrated into on-premise solutions.
- Project: Interactive voice avatar with speech recognition and speech synthesis.
- Involvement in strategic AI solution sales and technical pre-sales activities.
- Mentorship of an apprentice: technical tutoring and support on AI projects.

Data Scientist - ALD Automotive (Ayvens)

09/2022 - 07/2024

- Tools : Azure Data Factory, Azure Databricks, PowerBI, Python, Pyspark, APIs.
- Design, deployment, and monitoring of two vehicle pricing prediction solutions for B2B and B2C markets.
- Development of an internal scoring system for the finance team to improve decision-making processes.
- Active involvement in R&D to develop innovative solutions aligned with internal needs.
- Project management and mentorship.

Data Scientist - Inspection Générale Groupe BPCE

09/2021 - 09/2022 (Apprenticeship)

- Tools : OCR, Stack ELK, API, Python, Pyspark, SQL, PowerBI.
- Data support and data analysis for audit assignments.
- Design of a Proof of Concept (POC) in data engineering to implement a PDF-based search engine (ELK Stack).
- Topic modeling of Google reviews to improve customer experience in branches (NLP/LLM).

Data Engineer - SNCF Réseau

05/2021 - 08/2021 (Internship)

- Tools : Stack ELK (ElasticSearch, Logstash, Kibana), Ruby, Postman, GIT.
- Development of an ETL (Extract, Transform, Load) pipeline using the ELK Stack for visualization and anomaly detection in radio frequencies..

EDUCATION

M2 MoSEF (Data science) - 2022 Université Panthéon Sorbonne

Bachelor's Degree in ETI (Statistics) - 2020 Université Paris-Est Créteil

PACES (First year of medical studies) - 2017 Université Paris-Diderot

Scientific Baccalauréat - 2016 Lycée Rosa Parks
